

## Direct Vision Standards (DVS) Kit

### DVS KIT OVERVIEW

The Direct Vision Standard (DVS) is the first legislation of its kind. Since October 2020, all goods vehicles over 12 tonnes require a permit to drive into Greater London (including vehicles from outside of the UK). CKO is here to take the trouble out of meeting these standards - ensuring that your fleet is compliant for operation within the modern commercial vehicle world.

The system comprises of a Side Scan system to warn the driver (by visual and audible means) of potential hazards within the blind zones of the vehicle, a Left Turn Alarm that can be connected to the left indicator to warn pedestrians that the vehicle is turning left, a Side Camera and Monitor that can also be triggered by the left indicator to automatically show the driver a view of the left-hand side of the vehicle, and a sticker that says "Blind Spot Take Care".

### STICKERS-SET1

"Blind Spot Take Care" Sticker

### C-KO-ULTRASCAN-04B

### 4 Sensor - Side Proximity Sensor System with GPS Speed Detection

- Audible warning
- Visual traffic light display warning
- Detection Range: 0 - 200cm
- Operating Voltage: 9V - 32V DC
- GPS built-in off above 20Kph
- Brake input
- Sleep secure function

## Product Specification

### AVSM14CLH

#### Left Turn Alarm

- Automatically mutes when hazards are in operation to avoid confusion.
- Audio Alert states 'STAND CLEAR, THIS VEHICLE IS TURNING LEFT'
- Rated Voltage: 12/24V DC
- Rated Current: 0.4A
- dB Rating: 85 dB @ 1 metre
- Frequency Rating: 2500 +/- 10%
- Modulation: 80 per minute
- Overvoltage and surge protected
- Reverse polarity protected
- Fully encapsulated, waterproof to IP65 minimum
- Dimensions: 122 x 81 x 55mm

➤ Right turn alarm alternative also available.

### AHD-MON-C13

#### 7" AHD Dash Mount Monitor

- AHD / PAL / NTSC compatible
- 3 x 4 Pin aviation inputs
- 3 Triggers
- Resolution: 1024 x 600
- Contrast Ratio: 500:1
- Aspect Ratio: 16:9
- Brightness: 400cd/m<sup>2</sup>
- Viewing Angle: U: 50° D:70° R/L 70°/70°
- Operating Voltage: 12V / 24V DC
- Dimensions: 180mm(W) x 23mm(D) x 120mm(H)
- Monitor can power cameras

### AHD-SCAM-725-1080P

#### Night Vision Side Camera

- 4 Pin aviation connection
- TV System: AHD
- Output Resolution: 1080p
- FPS: 25
- Viewing Angle: 140°(H) 80°(V)
- Image Device: 1/4" CMOS
- Focal Length: f: 2.8mm
- Operating Voltage: 12V DC
- Dimensions: 60mm(W) x 75mm(D) x 50mm(H)
- Mirror image selectable
- Built-in Microphone
